## **To Whom It May Concern**

It gives me great pleasure to provide a Letter of Support to highlight the work of Darling Downs Pamphlet Distributors (DDPD).

I have known and worked with the owner Sue for more than 10 years and have always found Sue and her team of staff to be reliable, pleasant and professional.

I have always been impressed by the stability and consistency of the DDPD relationship. I would note that when our organisation has utilised the services of the business we have recognised the additional regions covered when delivering marketing material and the consistency of staff and service quality. DDPD has as its focus the delivery of pamphlets. Because of this they understand the importance of keeping every client happy – every time! This is important to us as we need to know that our marketing dollar hits the mark.

In addition to being an ethical and reliable business I would highlight the organisations community focus as they have been long term supporters of DISCO's Vocational Training awards and more recently the In School training awards. This support has seen multiple young people benefit from their businesses community mindedness.

I would be very happy to discuss the work undertaken and would welcome a call to highlight the relationship that our business has had with DDPD for many years.

If you need to negotiate a job to deliver marketing material and you want it done right the first time then I'm a big believer in using someone who has proved they can do it. DDPD is our first choice every time and you should make it yours!

Yours sincerely

**Mike Paton**
